## SUMMARY

GSR Global is a leading manufacturer and supplier of fiber optic & copper components for the past 33 years. GSR manufactures miniature to complex components that are utilized, but are not limited to telecommunication, data center, renewable energy, broadband and wireless industries. These products range from ferrules to cable assemblies, modules and loaded fiber enclosures for head-end sub systems and data centers. By combining sophisticated engineering with state-of-the-art manufacturing, GSR can tackle many industry-wide problems and offer delivered solutions with fast lead times. GSR is proficient in designing custom product lines and kitting for your value added opportunities. All telecommunication copper products have a 25 year warranty and our fiber products offer a lifetime warranty. These products are tested to meet or exceed Telecordia specifications and are RoHS compliant.

## CAPABILITIES

GSR Global's manufacturing facility can terminate 15,000 terminations daily. Whether you need one piece or demand high volume, GSR can accommodate your requests with a quick turnaround. These products include but are not limited to: Connectors, Cable Assemblies/Patchcords, Multi Fiber Assemblies, Attenuators, Fan-Out Kits, Splitters, Transceivers, SFPs, Enclosure/Cable Management Solutions, Fiber Optic Cleaning Products, Splice Trays and Accessories. GSR has over 1 million dollars in stock in our MA Headquarters, and will stock your products with blanket P.O.s or for any up-coming projects.

## FACILITIES AND EQUIPMENT
